Today Is Your day. It's Your Decision

For individual and communal access: and select "Online Reporting Access", where an account has been created for you.

Your secure user name and password will be sent to you once the setup process is completed. Once logged in you can select a new password by clicking on the "Change Password" option located under the "Home" tab. Your initial landing page is the "View, Save, & Print Report" page where you can see all of the available completed reports. You can also check on the status of other cases from the website. To check on the status of a case, select "View Status" under the "Ref Doctor" tab.

You may also opt for email notifications, where you will automatically receive an email informing when a report has been uploaded. If you would like to take advantage of this feature please confirm the email address where you would like these notifications directed.
